Features & Benefits

- Increased engine power and torque from award winning NANODRIVE low friction technology and synthetic ester formulation.
- Extended component life and reduced operating temperatures as a result of the instant lubrication provided by NANODRIVE low friction technology.
- "Track day ready", high performance oil; delivers maximum engine performance whilst meeting manufacturer's specifications and recommended oil drain interval for on-road use.
- Latest mid SAPS technology protects both engines and after-treatment systems including particulate filters (DPF/GPF) and Selective Catalyst Reduction (SCR), delivering our ultimate soot control and environmental protection.
